

# Printed Password

## Software: Dev cpp

### C language

```
#include <stdio.h>

#include <conio.h>

void main()

{

char pasword[10],usrname[10], ch;

int i;

printf("Enter User name: ");

gets(usrname);

printf("Enter the password <any 8 characters>: ");

for(i=0;i<8;i++)

{

ch = getch();

pasword[i] = ch;

ch = '*';

printf("%c",ch);

}

pasword[i] = '*';

getch();

/* If you want to know what you have entered as password, you can print it*/
```

```
printf("\nYour password is :");  
getch();  
for(i=0;i<8;i++)  
{  
printf("%c",password[i]);  
getch();  
}  
}
```

The screenshot shows a Windows command prompt window with the title bar "C:\Users\User\Desktop\mono". The window contains the following text:

```
Enter User name: india  
Enter the password <any 8 characters>: *****  
Your password is :12345678
```
